

Activity:

The aim of this activity is for children to practise counting in 5s. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to explain their answer.

Vocabulary:

A **number track** is a representation of the order of numbers when counting. It can go forwards or backwards. It is similar to a number line, but numbers can go up or down in jumps of 1s, 2s, 3s, etc.
