----	----	----	--	--	--	--	----	----

VF

2. There are 10 crayons in a box. What is the total number of crayons in each group?

VF

3. Ebony and Charlie are both counting within 100. Who will say 63?

Ebony

I'm going to say the numbers between 59 and 70.

Charlie

I'm going to count backwards from 69.

Explain your answer.

R

Counting to 100

1. Complete the sequences.

53	54	55	56	57	58	59	60	61
----	----	----	----	----	----	----	----	----

96	95	94	93	92	91	90	89	88
----	----	----	----	----	----	----	----	----

73	74	75	76	77	78	79	80	81
----	----	----	----	----	----	----	----	----

VF

2. There are 10 crayons in a box. What is the total number of crayons in each group?

86

79

VF

3. Ebony and Charlie are both counting within 100. Who will say 63?

Ebony

I'm going to say the numbers between 59 and 70.

Charlie

I'm going to count backwards from 69.

Explain your answer.

Ebony will say 60, 61, 62, 63, 64, 65, 66, 67, 68 and 69; Charlie will say 69, 68, 67, 66, 65, 64, 63 and so on; Therefore, they will both say 63.
