

Find and Make Number Bonds

1. Use the bead string to complete the number bond below.

$$\square + \square = \square$$

Now use what you know to complete the calculation.

$$\square + 14 = \square$$

2. Using the number bond below, fill in the missing numbers.

$$\text{---} \bullet \bullet \bullet \bullet \text{---} + 6 = 10$$

$$\square + \square = 20$$

3. Alfie thinks the missing number is 19.

$$16 + \text{---} \text{---} = ?$$

Is he correct?

4. Match the numbers bonds that make 14.

7

4

8

7

9

5

5. Find three ways to complete the part-whole model.

6. Use the digit cards to complete the calculations.

$$6 + \square = 18$$

$$\square + 2 = 15$$

$$\square + 3 = 5$$

$$2 + \square = 8$$

7. Is Freya correct? Explain how you know.

I know $6 + 4 = 10$,
so $16 + 3 = 20$.
