

# Introduce Weight and Mass

Vinnie the Vet is comparing the weight of his animals. He places a rat and one other animal on the scale below.

The hamster is lighter than the rat.

The kitten is the heaviest animal.

Two mice are the same weight as one hamster.

The rabbit is the same weight as two rats.

The guinea pig is lighter than the kitten but heavier than the rabbit.

Investigate which animal could complete the scale correctly.

Possible	Not possible
