

Activity:

The aim of this activity is for children to practise ordering numbers to 100. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Vocabulary:

$>$ $<$ $=$ are comparison symbols used to represent more than ($>$), less than ($<$) and equal to ($=$).

Supporting resources:

You can watch a video tutorial about ordering numbers on [$kids.classroomsecrets.co.uk$ >> Year 1 >> Maths >> Place Value >> Video Tutorials.](https://kids.classroomsecrets.co.uk)

Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on classroomsecrets.co.uk/membership.

Ordering Numbers

1. A
2. $B < C < A < D$
3. Frank is correct because the numbers are ordered from largest to smallest. $31 < 63$ and $31 > 12$
