

Activity:

The aim of this activity is for children to practise adding 2-digit numbers. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Vocabulary:

A **calculation** is a way to determine an amount. It may involve addition, subtraction, multiplication or division.

Supporting resources:

You can watch a video tutorial about adding 2-digit numbers on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> **Year 2** >> **Maths** >> **Addition and Subtraction** >> **Video Tutorials**.

You can watch the answer explanation video which takes children through this activity and ways to answer it on <https://www.youtube.com/user/ClassroomSecretsLtd/playlists> >> **Year 2 Playlist** >> **Add 2-Digit Numbers Answer Explanation**.

Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on [classroomsecrets.co.uk/membership](https://www.classroomsecrets.co.uk/membership).

Check out our daily timetable for Year 2 home learning activities on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> Home Learning Timetable.

Add 2-Digit Numbers

1. C
2. A. 82; B. 72; C. 92
3. Ana is incorrect. Although she has added the ones up correctly, she has forgotten to add the extra 10 in the tens column. There are 72 birds altogether, not 62.
