

Count Money – Notes and Coins

1. A football costs £13 and 55p. Who has enough money to buy it?

2. Write the total for each amount.

A.

B.

C.

D.

3. Tim and Nala are counting their money. What combination of notes and coins could Nala have? Find three possibilities.

Tim

I have one note and three coins in my money box which total £11 and 60p.

Nala

I have one note and three coins in my money box and I have more money than Tim.
