

Activity:

The aim of this activity is for children to practise counting on and back in 2s, 5s and 10s to 100. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Vocabulary:

A **sequence** is a series of numbers or images that follow a set pattern. For example, they might increase by 2 each time.

Place value counters refer to a physical resource which can be used to represent numbers. They are usually in different colours and have different numbers written on them, to represent 'ones', 'tens', 'hundreds' etc. They can also represent decimal numbers.

Supporting resources:

You can watch video tutorials about counting in 2s, 5s and 10s on kids.classroomsecrets.co.uk >> **Year 1** >> **Maths** >> **Place Value** >> **Video Tutorials**.

You can watch the answer explanation video which takes children through this activity and ways to answer it on <https://www.youtube.com/user/ClassroomSecretsLtd/playlists> >> **Year 2 Playlist** >> **Count in 2s, 5s and 10s Answer Explanation**.

Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on kids.classroomsecrets.co.uk/membership.
