

# Year 2 Make Equal Groups – Sharing – Guidance for Parents/Carers

## Activity:

The aim of this activity is for children to practise making equal groups by sharing. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

## Vocabulary:

A **representation** refers to a number or calculation that has been shown in different ways. This number may have been shown in numerals, words or using mathematical equipment such as Base 10 or a place value chart.

A **calculation** is a way to determine an amount. It may involve addition, subtraction, multiplication or division.

## Supporting resources:

You can watch a video tutorial about making equal groups by sharing on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> **Year 2** >> **Maths** >> **Multiplication and Division** >> **Video Tutorials**.

You can watch the answer explanation video which takes children through this activity and ways to answer it on <https://www.youtube.com/user/ClassroomSecretsLtd/playlists> >> **Year 2 Playlist** >> **Make Equal Groups – Sharing Answer Explanation**.

## Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on [classroomsecrets.co.uk/membership](https://www.classroomsecrets.co.uk/membership).

**Check out our daily timetable for Year 2 home learning activities on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> Home Learning Timetable.**

## Make Equal Groups – Sharing

1.

$$18 \div 6 = 3$$

$$20 \div 2 = 10$$

$$14 \div 7 = 2$$

2. D

3. Mia is correct, if you share 16 into two groups you will have 2 groups of 8. If you share those groups into two more groups you will have 4 groups of 4, the same as if you shared 16 into 4 groups.
