

Activity:

The aim of this activity is for children to practise using millilitres when measuring capacity. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Supporting resources:

You can watch a video tutorial about millilitres on kids.classroomsecrets.co.uk >> **Year 2** >> **Maths** >> **Mass, Capacity and Temperature** >> **Video Tutorials**.

Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on classroomsecrets.co.uk/membership.

Millilitres

1. 15ml
2. 50ml
3. Sam is incorrect. He has already added the correct amount to make 80ml in total.
