

Activity:

The aim of this activity is for children to practise finding non-unit fractions. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to problem solve and explain their answer.

Vocabulary:

A **non-unit fraction** is a fraction where the numerator is not 1. For example, $\frac{3}{7}$.

Supporting resources:

You can watch a video tutorial about non-unit fractions on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> **Year 2 >> Maths >> Fractions >> Video Tutorials.**

You can watch the answer explanation video which takes children through this activity and ways to answer it on <https://www.youtube.com/user/ClassroomSecretsLtd/playlists> >> **Year 2 Playlist >> Non-Unit Fractions Answer Explanation.**

Other resources:

If your child enjoyed this activity and wants to try more activities linked to this learning, you can sign up for £4.83 per month on [classroomsecrets.co.uk/membership](https://www.classroomsecrets.co.uk/membership).

Check out our daily timetable for Year 2 home learning activities on [kids.classroomsecrets.co.uk](https://www.kids.classroomsecrets.co.uk) >> Home Learning Timetable.

Non-Unit Fractions

1. A. $\frac{2}{3}$; B. $\frac{3}{4}$; C. $\frac{1}{3}$; D. $\frac{2}{4}$; E. $\frac{4}{4}$.

$\frac{1}{4}$ is the odd one out.

2. A. Any 3 parts shaded; B. $\frac{2}{4}$; C. Any 1 part shaded; D. $\frac{2}{3}$; E. 3 parts shaded.

3. Maddie is incorrect. The pizza was cut into 3 equal slices. This means each slice is a third so she ate $\frac{2}{3}$ of the pizza.
