

Select Money

1. True or false? The amount of money circled below is 76p.

2. Which box contains 50p? Circle A or B.

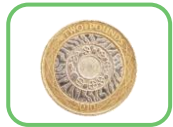

A

B

3. Which box has the missing amount of money?

$$£5 \text{ and } 60\text{p} = £4 + \square + 50\text{p} + 10\text{p}$$

A

B

C

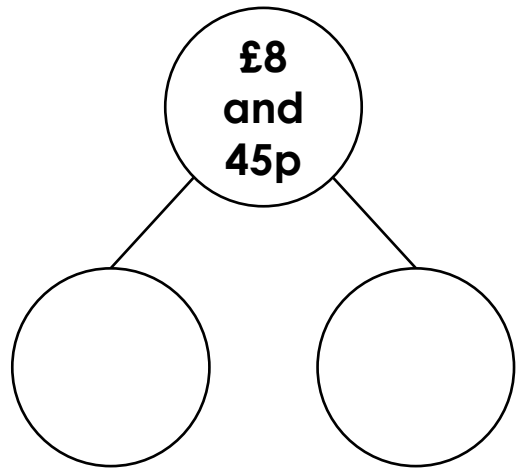

4. Will has the amount shown below.

Circle the other coins that he will need to total £9 and 21p.

5. Using 1 note and 6 coins, complete the part-whole model. Give 2 possible answers.

6. Angela and Stephen both have £5 and 3p.

Angela

I have 6 coins.

Stephen

I have one note and two coins.

What combinations could Angela and Stephen have?

7. Max and Lily want to buy a bottle of ketchup.

Lily thinks they have enough money. Max thinks they need more money. Who is correct? Explain how you know.
