

Equivalent Fractions 1

Match the fractions below. Which fractions are the odd ones out? Explain why.

A.

B.

C.

$$\frac{8}{12}$$

D.

E.

F.

G.

H.

$$\frac{8}{10}$$

Create your own equivalent fractions for the odd ones out.

Equivalent Fractions 1

Match the fractions below. Which fractions are the odd ones out? Explain why.

C. $\frac{8}{12}$

H. $\frac{8}{10}$

Create your own equivalent fractions for the odd ones out.

B, C and F are equivalent to $\frac{2}{3}$ and D, G and H are equivalent to $\frac{4}{5}$.

A and E are the odd ones out because A is split unequally and E does not have an equivalent fraction shown. As A is unequal, there is no equivalent fraction to be made.

A fraction equivalent to E:
