

Months and Years

1. Complete the table.

A.	Number of days in the sixth month of the year	
B.	Number of months in 2019	
C.	Number of days in March in a leap year	

VF

4. Which card does not show a month with the same number of days?

- the month before May
- September
- the 8th month of the year

Explain your reasoning.

R

2. Use the numbers to complete the statements.

- A. There are ____ days in the 10th month of the year.
- B. There are ____ days in a non-leap year.
- C. The month before December has ____ days.

365

30

31

VF

5. Complete the table about the 3 friends' dates of birth using the information below.

				Nov		2010
		2				2010
Sinbad				Nov		2010

- Amina's birthday is in the 9th month of the year.
- Shama's birthday is before the 8th day of the month.
- Sinbad's birthday is more than 2 days before Shama's and uses an odd number.

Find two ways to complete the table.

PS

3. The list below shows dates from earliest in the year to latest.

27 th January	
17 th April	
28 th December	
4 th July	

Tick the dates that are in the wrong place.

VF

6. Erin is thinking of a month.

- There are an odd number of days in this month.
- This month is in the first seven months of the year.
- This month always has at least 29 days.

Write two possibilities that Erin's month could be. Explain your answer.

R

Months and Years

1. A. 30; B. 12; C. 31
2. A. 31; B. 365; C. 30
3. 4th July and 28th December
4. The 8th month (August) because it has 31 days. The month before May (April) and September both have 30 days.
5. Various answers, for example:

Shama	6	/	Nov	/	2010
Amina	2	/	Sep	/	2010
Sinbad	3	/	Nov	/	2010

or:

Shama	4	/	Nov	/	2010
Amina	2	/	Sep	/	2010
Sinbad	1	/	Nov	/	2010

6. Any two from January, March, May and July as they all have 31 days. Although February has 29 in a leap year, it does not always have 29 days.
