**Boxer Dogs – Editing Task**

Boxer dogs are an intermediate size breed of dog, originally bred to be guard dogs. They are now working dogs. They are typically between one foot and nine inches and two feet tall. However, they are one inch taller at the shoulder. They way between sixty and seventy pounds as well as lived to an age of between ten and twelve years.

Boxer dogs originated in Germany but after World War 1, they were introduced to the United States of America. Boxer dogs are square-headed and muscular. They have short and shiny coats which are fawn or brindle with flashy white markings. Many Boxers have docked tails and cropped ears.

Boxer dogs have a playful nature and boundless energy. They can be known as the “Peter Pan” of dog breeds. Boxer dogs are very loving so they often act as lapdogs and will lie as close to their owners as possible. Boxers are renowned for their great love, affection and loyalty to the families they lived with.

Boxer dogs are high-spirited, happy and energetic. They often paw enthusiastically, cat-like, at their toys, food bowls and even at their owners when they are excited. They often “kidney bean”, a little danced where they twisted their body into a semi-circle, similar to the shape of a kidney bean and then turn in circles.

Boxer dogs also make a unique sound, called a “woo-hoo”, when they want something or are excited. It is not exactly a bark but rather sounds like they are saying “woo-hoo, put your attention on looking at me”.

But life isn't all fun and games for all Boxer dogs. Due to their strength, bravery and courage, Boxer dogs have a wide role in the military and the police, as well as search-and-rescue work. When specifically trained for guard work, Boxer dogs are stupendous watchdogs and will restrain an intruder in a similar manner as a Mastiff. Boxer dogs also excel in obedience, agility and schutzhund (a demanding three-phase competition event that tests the dog's tracking, obedience, and protection abilities).

8. Which interview did you find the most interesting? Why?
The Big Race

Each year, there is a big bicycle race in France. It is called ‘Le Tour de France’ which means ‘The Tour of France’ in English. Some people just call it ‘Le Tour’. It is very famous. People from all over the world come to watch the race. Teams of top cyclists come to take part. The race has lots of different parts. These parts happen all over France.

The rider in the lead of the race at the start of each day is given a yellow top to wear. The person who is in the lead at the end of the last day keeps the yellow top. It shows they have won!

When: 1st July  Where: Dusseldorf
Distance: 14km/9 miles  Winner: Antonio Rossi

Antonio, how does it feel to start the Tour with a win? What do you think of starting the Tour in a different country?

Oui, yes, it feels very good to start with a win. It was a very short race today. To start with one of the special, short ‘Time Trials’ was great for me. I am known to be fast. I am the sprinter on my team, so I should do well in Time Trials.

To start Le Tour de France in Germany seems funny but it is enjoyable. It makes things interesting. It gives us new places to ride and see. I remember when a few years ago the Tour started in Yorkshire, in England. That was very fun too!

When: 17th July  Where: Le Puy-En-Velay
Distance:  
Winner: I’m here again with Antonio Rossi, who has not done as well as some people thought he might. Antonio, you started so well. What has gone wrong? Will this second day of rest help you?

I do not know what has gone wrong. We have had some small injuries in our team. Maybe those injuries are slowing us down. I just can’t get into good places. I need to be near the front to be able to win each race. We are not close enough. I hope this second rest day will make things better for the last races. Maybe our legs will get better.
