

Year 3 Subordinating Conjunctions – Guidance for Parents/Carers

Activity:

The aim of this activity is for children to practise subordinating conjunctions. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to apply their learning to get the answer.

Vocabulary:

A **clause** contains a subject and a verb. For example: The child ran. 'The child' is the subject and 'ran' is the verb. There are **main clauses** and **subordinate clauses**.

A **main clause** is a group of words that make sense on their own. It has a subject (the person or thing that does an action) and verb (the action). For example, Adam eats bananas.

A **subordinate clause** contains a subject and a verb, but it does not make sense on its own. It needs to be attached to a **main clause**. For example: I read books **when I have free time**.

A **conjunction** is a word used to join two clauses. There are different kinds of conjunction such as for time (e.g. **after**), place (e.g. **where**) and cause (e.g. **because**).

A **subordinating conjunction** is a conjunction that introduces a subordinating clause, for example: although, because.

Subordinating Conjunctions

1. False, because the words in sentences A and C are not conjunctions. The conjunctions in those sentences are 'after' and 'because'.
2. A: while, B: although, C: after
3. The subordinate clause is underlined in sentence A as it would not make sense on its own. It adds extra information to the main clause, which tells you when we ate our sandwiches. The main clause is underlined in sentence B because it makes sense as a sentence on its own.
