

Interpret Charts

1. A. 13 people; B. 13 more people; C. 53 people in total.
2. A. Thursday; B. 78 shifts; C. Monday and Tuesday with 24 shifts; D. Monday and Wednesday
3. A. June is incorrect as the bar chart shows 40 children have visited France whereas only 30 children have visited Italy. This means more children have visited France compared to Italy.
B. Various answers, for example:

Sweden: 10; Norway: 30
