

# Interpret Charts

John wanted to present the data in the table in two different charts but he has spilt ink on some of the data. Using the clues, help John to complete the table.

- Fish, pig and owl combined have the same total as dog.
- Fish and lion have a difference of 1.
- Half as many cats were picked compared to pigs.

Various answers, for example:

Favourite animal	Fish	Dog	Lion	Pig	Owl	Cat
Number of children	4	12	5	6	2	3
