

## Activity:

The aim of this activity is for children to practise using paragraphs in non-fiction. There are six questions to complete. The first three questions allow children to practise the skill, while the next three questions extend them as they have to apply their learning to get the answer.

## Vocabulary:

A **paragraph** is a group of sentences that share a common idea. A new paragraph should be started where there is a change of time, location, character or theme.

A **colon ( : )** is used to introduce a list or to separate two clauses where the second clause following the colon explains or gives examples illustrating the first.

A **sub-heading** is a mini headline that can capture the reader's interest and allow the text to be divided into subjects. It is usually smaller in size than the main headline.

**Bullet points** are used to draw attention to important information. They allow the reader to access key facts or issues quickly.
