

Activity:

The aim of this activity is for children to practise using the subjunctive form. There are three questions to complete. The first two questions allow children to practise the skill, while the third question extends them as they have to apply their learning to get the answer.

Vocabulary:

The **subjunctive** is a verb form used to express a hypothetical situation, or something that you wish would happen, rather than an actual situation. The subjunctive verb 'were' is used in sentences for wishful thinking, hypothetical statements and unreal situations, for example, *I wish I were older* (wishful); *If I were a teacher, I would...* (hypothetical); *Sally acts as if she were the boss* (unreal).

Was or Were?

1. C is the odd one out.
2. A = had, B = was, C = was
3. Yes, because 'were' could be used in the subjunctive form to express a wish. The sentence could say: The hockey game kicks off at 11 o'clock, I wish I were allowed to play but I have to visit my grandma.
